

## SOIL IMPORT APPLICATIONS

### PROJECT DESCRIPTION:

The Horizontal Integrated Construction Program at the National Western Center is accepting soil import applications through May 2023. Interested parties must meet the guidelines outlined below in order for the soil to be accepted:

- The soil must be free of charge, including costs to transport it to the job site.
- The soil must have a maximum particle size of two inches, less than 40% passing a No. 200 sieve, a liquid limit less than 25 and a plasticity index less than 10.
- Material testing data should be provided and tests should be made in accordance with ASTM D1556-00 or D5195-14.
- The soil must meet the [Guidance for Reuse of Soil on City Projects](#) memo.
- A schedule, including quantity to be delivered daily, must be provided.
- The soil location must be provided.

Applications can be submitted electronically to Kyle Bonde at [kbonde@henselphelps.com](mailto:kbonde@henselphelps.com) and will be accepted until May 2023.
