

CONSTRUCTION NOTICE

Water Outage | Saturday, Jan. 8

Our contractor is preparing to tie in a new waterline in conjunction with new facilities at the National Western Center. In order to complete this work, Denver Water will need to temporarily close an isolation valve on the water main along Franklin Street.

As a result, there will be a water outage to your building for a short period of time on Jan. 8. The anticipated duration is twelve hours, starting at 6 a.m. and expected to finish at 6 p.m.

Please contact Jenna Espinoza at jenna.espinoza@denvergov.org with any questions or concerns.
